**Subject:** RE: ARB Federal Grant A00901319 - Section 105, FY20 Amendment, Remote Airborne Monitoring of Emissions from Ocean-Going Vessels

Hi Jer,

Penny mentioned adding a new project to ARB's CAA 105 grant, but she did not mention an estimated amount. If ARB intends to use funding already approved in your current 105 grant for this project, you can submit a revised work plan and budget. However, if this project will require additional EPA grant funds (more than the amount approved for this fiscal year), you can either send a new application for the amount of the new project only or amend the current application to add the new funding along with a description of the new project, estimated timeline and detailed budget information. I will amend the grant when additional funds become available and upon approval of the application and new work plan.

Please call me if you have any questions.

Thanks!

- Angie

**Subject:** ARB Federal Grant A00901319 - Section 105, FY20 Amendment, Remote Airborne Monitoring of Emissions from Ocean-Going Vessels

Hi Angela,

Program would like to add another project (Remote Airborne Monitoring of Emissions from Ocean-Going Vessels) to Sec 105 and have the funds available around June 2020 or sooner. They have been working with Penny McDaniel from US EPA on this.

Please let us know if we can amend our FY20 application and how much US EPA estimates on allocating for this project.

Thank you,

**Jer Yang**
